

## **HOMEWORK TIMETABLES**

Please find attached homework timetables to be implemented from **12/09/11**. These timetables should be read in conjunction with the homework policy (available on the school website – HOME | SCHOOL | PUBLICATIONS).

Students should be issued with homework in the lessons stated. Deadlines should be set so that students have at least three nights and no longer than one week to complete any piece of homework. This will ensure that their workload is spread throughout the week.

In cases where homework might be an extended task, staff should chunk it down and still provide specific weekly tasks.

**Whenever a piece of work is set, staff should ask students to record the homework and deadline in their planner.**

Form teachers should ensure that tutees have copied down their homework timetable into the relevant page in their planners.

The completion and quality of homework will be monitored in line with the policy (by subject teachers, form tutors, middle leaders and senior staff).

**July 2011**
